

EndoPilot² Set "premium"
 artikel-No.: 110 0106

The successful complete solution - EndoPilot - newly designed

As a modern company, it was our aim to present our successful, highly valued EndoPilot series in a fresh design. Look forward to tried and tested, sophisticated technology with a clear menu for your root canal treatments with the **EndoPilot²**.

The EndoPilot² range offers proven, high-quality, safe and efficient root canal treatment, from preparation to final thermoplastic filling according to the latest endodontic requirements. All necessary steps of a root canal treatment can be carried out with **only one** comfortable, space-saving control unit.

The EndoPilot² series has also been developed modularly, it is available and upgradeable in various configurations. Up to **7 functions** are possible. An upgrade, for e.g. with Obturation can be easily done by the user.

EndoPilot² Set „comfort“

Article no.: 110 0101

Apex measurement + EndoMotor

Control unit:.....

EndoPilot², Touch-Display,
with Li-ion high performance battery
Med. **AC/DC converter** 100-240V/50-60Hz
Apex cable with File-clamp and Retainer
Wireless footswitch, single

Preparation :

EDP-Motor ISO-E coupling, LED-indicator,
integrated apex-connection
Contra-angle, 1:1, for apex measurement,
fully insulated, ISO-E coupling
Motor holder, right

Upgradeable:

- DownPack
- BackFill
- UltraSonic
- Peristaltic-Pump
- SAF-System

EndoPilot² Set „plus“

Article no.: 110 0102

Apex measurement + EndoMotor +
Obturation

Control unit:.....

EndoPilot², Touch-Display
with Li-ion high performance battery
Med. **AC/DC converter** 100-240V/50-60Hz
Apex cable with File-clamp and Retainer
Wireless footswitch, single

Preparation :

EDP-Motor ISO-E coupling, LED-indicator,
integrated apex-connection
Contra-angle, 1:1, for apex measurement,
fully insulated, ISO-E coupling
Motor holder, right

Obturation:

DownPack handpiece, with LED-indicator
Heating tip size: fine
Back-Fill Gun Obtura
Gutta Percha Bar (100 pcs/box)
Heat Insulator (4 pcs/box)
Needles Ø25 ga (5 pcs/box)
Accessory tools and cleaning set
Handpiece holder, left

Upgradeable:

- UltraSonic
- Peristaltic-Pump
- SAF-System

EndoPilot² Set „ultra“

Article no.: 110 0103

Apex measurement + EndoMotor +
UltraSonic

Control unit:.....

EndoPilot², Touch-Display
with Li-ion high performance battery
Med. **AC/DC converter** 100-240V/50-60Hz
Apex cable with File-clamp and Retainer
Wireless footswitch, single

Preparation:

EDP-Motor ISO-E coupling, LED-indicator,
integrated apex-connection
Contra-angle, 1:1, for apex measurement,
fully insulated, ISO-E coupling

UltraSonic:

Ultrasonic modul with twin holder
Ultrasonic handpiece Satelec Newtron
with instrument tool

Upgradeable:

- Obturation
- Peristaltic-Pump
- SAF-System

EndoPilot² Set „ultra plus“

Article no.: 110 0104

Apex measurement + EndoMotor +
UltraSonic + Obturation

Control unit:.....

EndoPilot², Touch-Display
with Li-ion high performance battery
Med. **AC/DC converter** 100-240V/50-60Hz
Apex cable with File-clamp and Retainer
Wireless footswitch, single

Preparation:

EDP-Motor ISO-E coupling, LED-indicator,
integrated apex-connection
Contra-angle, 1:1, for apex measurement,
fully insulated, ISO-E coupling

UltraSonic:

Ultrasonic modul with twin holder
Ultrasonic handpiece Satelec Newtron
with instrument tool

Obturation:

DownPack handpiece, with LED-indicator
Heating tip size: fine
